Stevie,

We can handle 8-9 more samples for rad analyses: Gross alpha/beta, uranium, thorium, gamma, Ra-226, and Ra-228.

Please let me know when you ship the samples to us. We need 8 liters of sample, preserved with nitric, and no ice is needed in shipping.

Thanks,

Cindy White

Subject: Dimock Samples -- upcoming sampling

Hello Regional support,

This a request to provide assistance for supplemental samples for the Dimock Residential Groundwater Site..

There are 3 homes that were not sampled during the first round of sampling. There are plans to collect these samples the week of May 21.

This will give a total of 8-9 samples. (Two samples per home, one DUP, two FB, one QC)

Please let me know if you can support this effort.

Region 2: MBAS
Region 9: Dissolved gases, GRO
Region 6: Ethylene glycol/propylene glycol (modified 8270D)
NAREL: RAD parameters.
